

The Universal Gauge

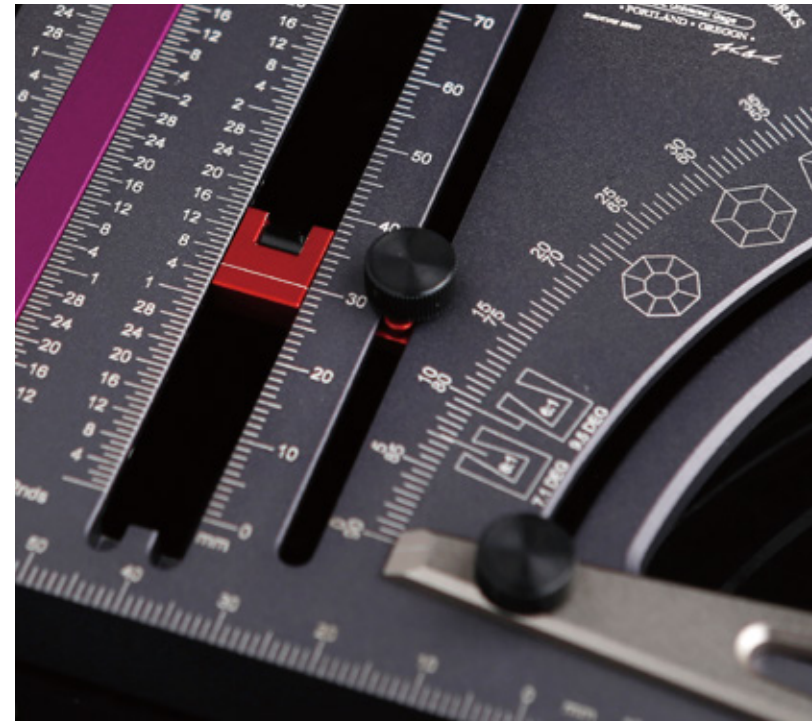

UG-1

- The Universal Gauge (UG-1) is one of the handiest protractors and layout tools we have ever designed and is made for makers who work in a confined space or those who understand the value of their time.

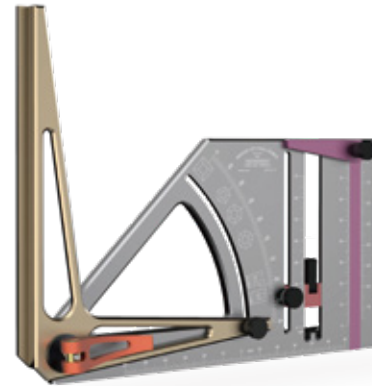

- Two 90-degree references within the functionality of the UG-1
- Quick Reference Icons
- Laser etched 45-degree quadrant
- Dovetail squares
- Two-point locking system
- Excellent accessory for the Jointmaker Pro (JMP)
- Fast Locking Depth Gauge
- Positive locking height gauge
- Marking gauge
- Metric Centering rule
- Left and Right Versions
- Magnetic Base
