PB-2 Palm Brace

Overview

The PB-2 Palm Brace is made of titanium alloy and stainless steel with a PVD coating. It is designed to drill holes and drive screws.

The PB-2 Palm Brace uses a standard quarter inch hex keyless chuck.

The following points should be noted while using:

1. The rotational stability and adequate pressure are extremely important for getting good performance out of your palm brace.
2. When drilling deeply into wood, it is recommended to clean the chip in a timely manner.

Care and Maintenance

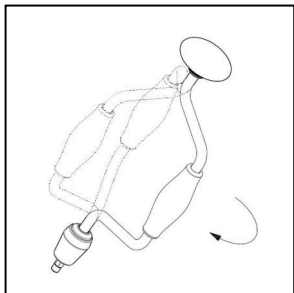

The PB-2 palm brace requires very little maintenance. A clean soft cloth will clean your PB-2 Palm Brace with ease.

PB-2 手摇钻

概述

PB-2 手摇钻使用具有PVD涂层的钛合金和不锈钢制作，用于钻孔与拧螺丝。

PB-2 手摇钻使用标准 1/4” 六角夹头。

使用时，须注意：

1. 旋转的稳定性及合适的压力会影响加工质量，通过控制球形手柄来控制旋转的稳定性及压力。
2. 钻深孔时，注意及时清理木屑。
3. 用户在初次使用该类工具时，可能存在不习惯，须经过运用培养手感，以达到良好的使用效果。

维护和保养

PB-2无须特别保养。使用完成后，用干净的软布擦去表面灰尘即可。

Warranty

All returns, replacements, technical services, and support shall be handled by distributor's customer service organization. If there is a defect on the workmanship of the tool (with no fault of the customer) within one year from the original date of purchase, please contact with the distributor's customer service organization and they will determine whether to repair or replace the tool.

质保

所有退货、换货、技术服务和支持均由经销商的客户服务机构负责。如果在原始购买日期后一年内发现工具存在工艺缺陷(客户无过),请与经销商客户服务机构取得联系,并由该服务机构决定是否对工具进行修理或更换。
